

## DCP Grant Tuition Rates for Proposals

Updated 11/8/23 per Amber email

UF decided two years ago to start collecting lost revenue for out-of-state tuition being charged on grants. UF is raising tuition by 10% through the 23/24 AY and will raise it by 5% afterward, presumably until the entire out-of-state rate is reached (unless tuition rises). We were not sure how DCP's rate would increase since our tuition is already higher. Our original guestimates were high, and after two years of watching what our students were charged, we are pleased to adjust the proposal rates to lower tuition costs. This will be re-evaluated annually to be sure that we do not undercharge.
