

Finding Funding with Pivot-RP

New Faculty Orientation

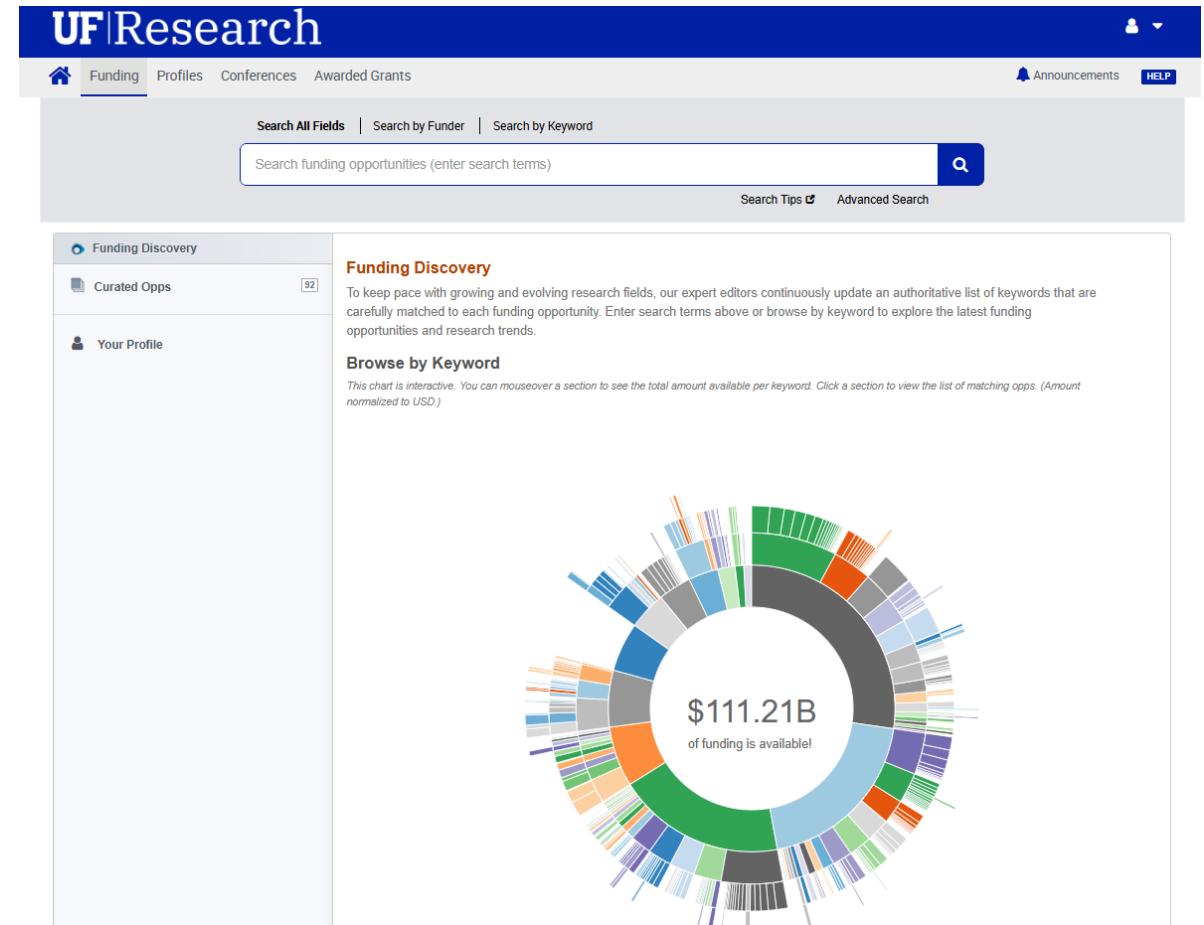

- Claim & update your profile • Review keywords • Discover opportunities
- Set alerts & track opportunities • Find collaborators

A searchable funding and expertise database available at no cost to the UF community.

Connects faculty, staff, students and researchers with funding opportunities and expertise.

Supports funding discovery, researcher profiles, collaboration and personalized alerts.

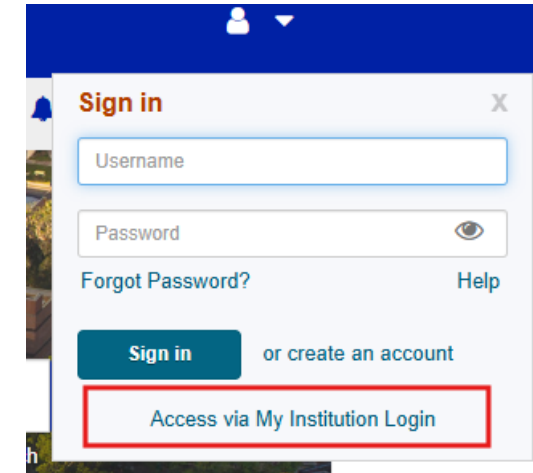

Not every opportunity in Pivot will apply to UF or to every researcher. Review the applicant eligibility requirements for each opportunity before proceeding.

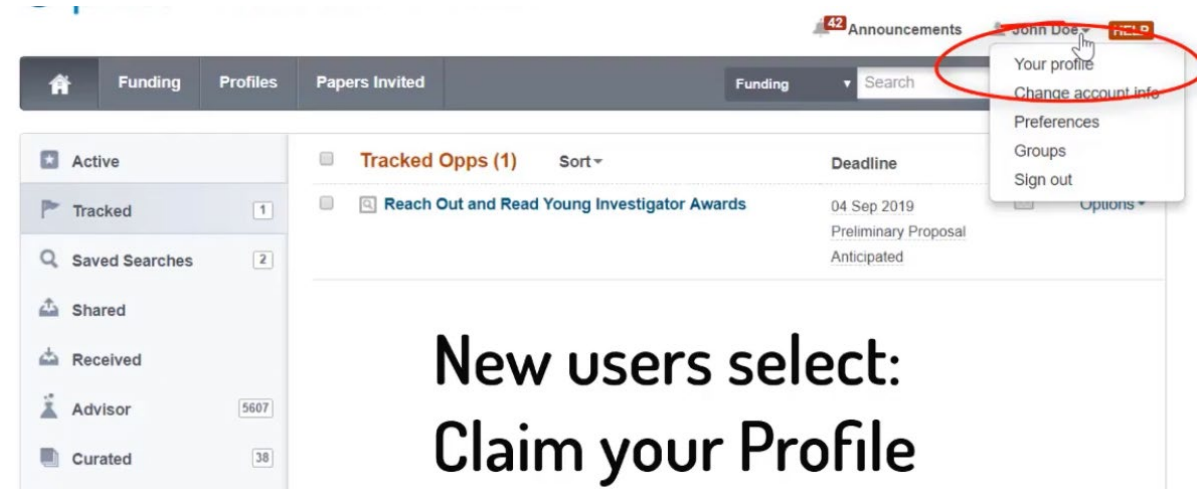

Sign in and use your institutional credentials when prompted.

New users may see “Claim Your Profile.”

Claiming your profile allows you to review and maintain your researcher information.

Important: Review your profile for accuracy

- Open Your Profile and select Edit Profile.
- If someone will help maintain your profile, you can designate a Pivot user as a proxy.
- Review prepopulated information for accuracy
- Use the edit controls to update individual profile sections.
- A current profile improves funding matches and helps potential collaborators find you.

M. E. Pinker, Sr. School of Construction Management

Add middle and alternate names used for publishing.

Add links to a personal webpage or CV page.

Add ORCID iD to support publication linking.

Review expertise, affiliations and education.

Add research keywords using Pivot's controlled vocabulary.

Profile Tip: Publishing names, personal/CV links and research keywords are especially important for relevant Funding Advisor alerts, recommendations and automated citation linking.

Enter a research term and select matching terms from Pivot's keyword hierarchy.

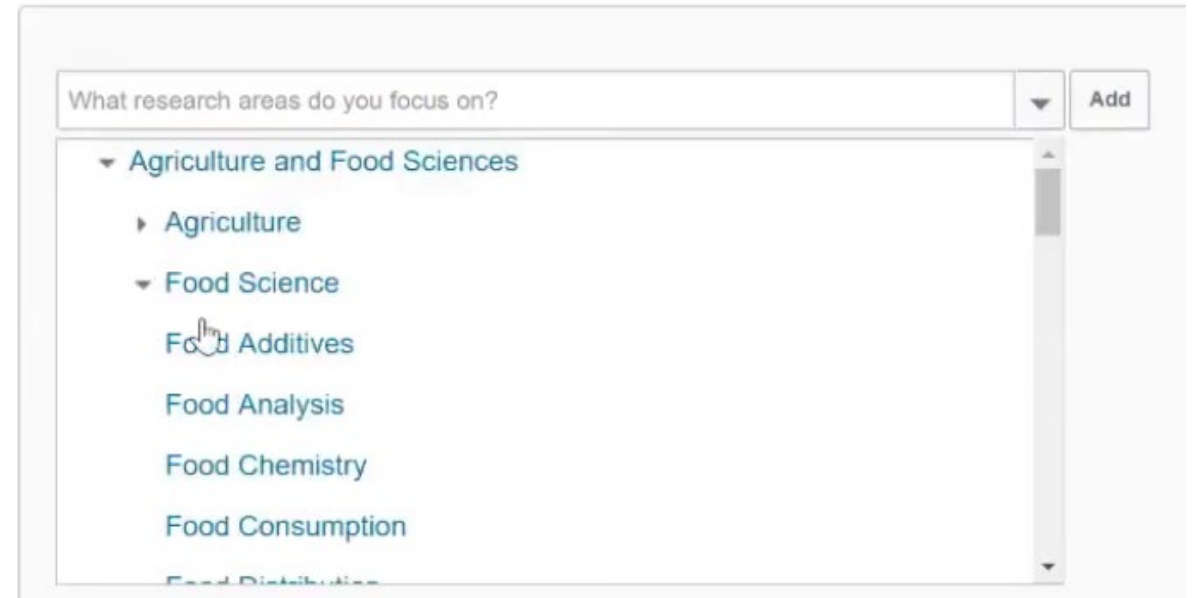

Or browse the hierarchy to identify relevant terms.

Add multiple relevant keywords to describe your research broadly and specifically.

More relevant keywords can improve funding recommendations.

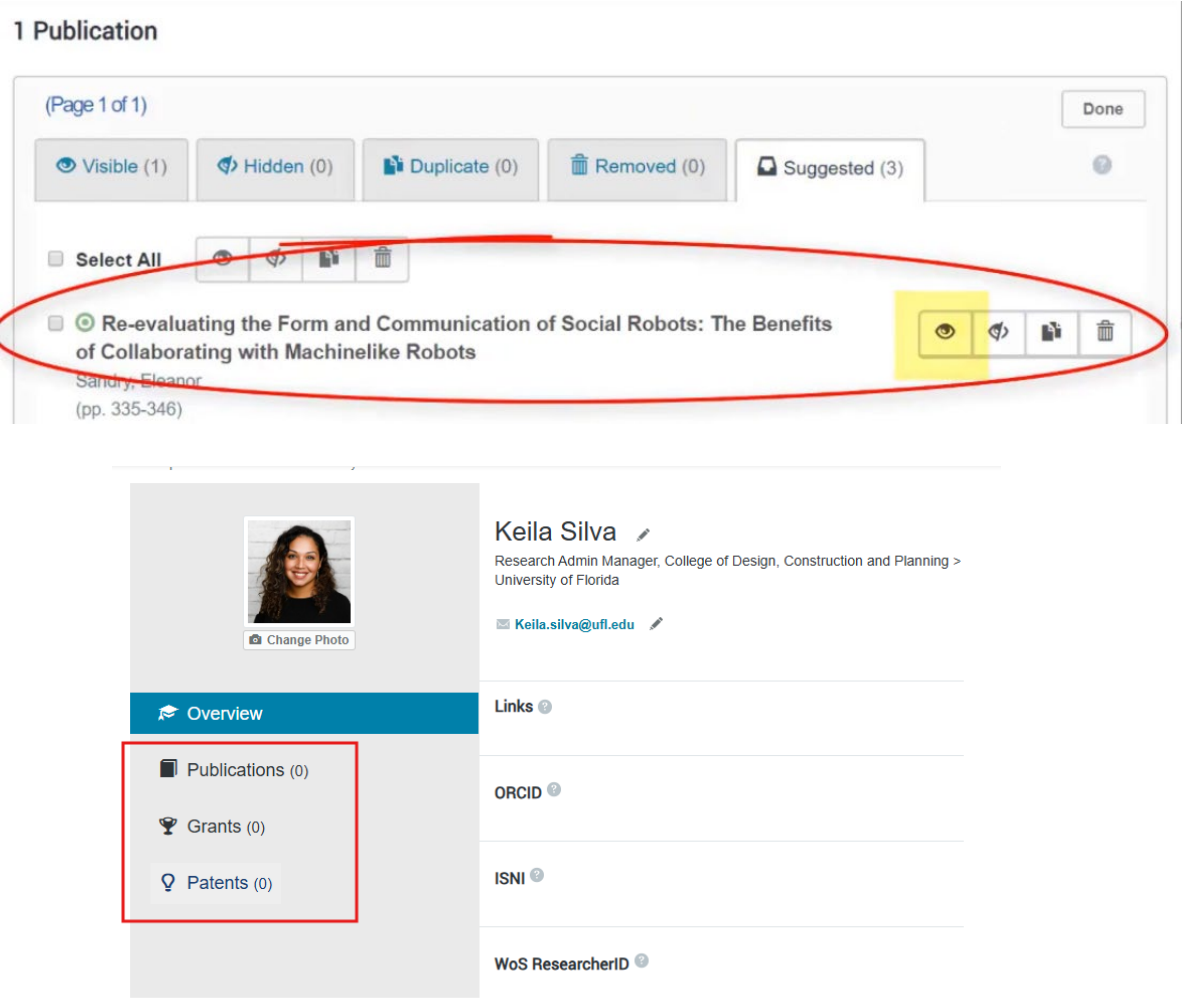

Remember to save your changes.

Keywords

The screenshot shows a web interface for selecting keywords. At the top, there is a search bar with the placeholder text "What research areas do you focus on?" and a dropdown arrow. To the right of the search bar is an "Add" button. Below the search bar, a list of keywords is displayed under a "▼ Agriculture and Food Sciences" header. The list includes "Agriculture", "Food Science", "Food Additives", "Food Analysis", "Food Chemistry", "Food Consumption", and "Food Distribution". A mouse cursor is hovering over the "Food Additives" item.

- Pivot adds publications through an automated monthly process.
- If few publications appear, add several manually or upload citations in RIS/BibTeX format.
- Review suggested publications and remove duplicates or items that are not yours.
- For grants, sponsor + award ID may help Pivot find and auto-populate the award; otherwise, enter it manually.
- Patents are added manually.
- When finished updating the profile, select Done.
- Updates occur immediately and the profile page should refresh to display changes.

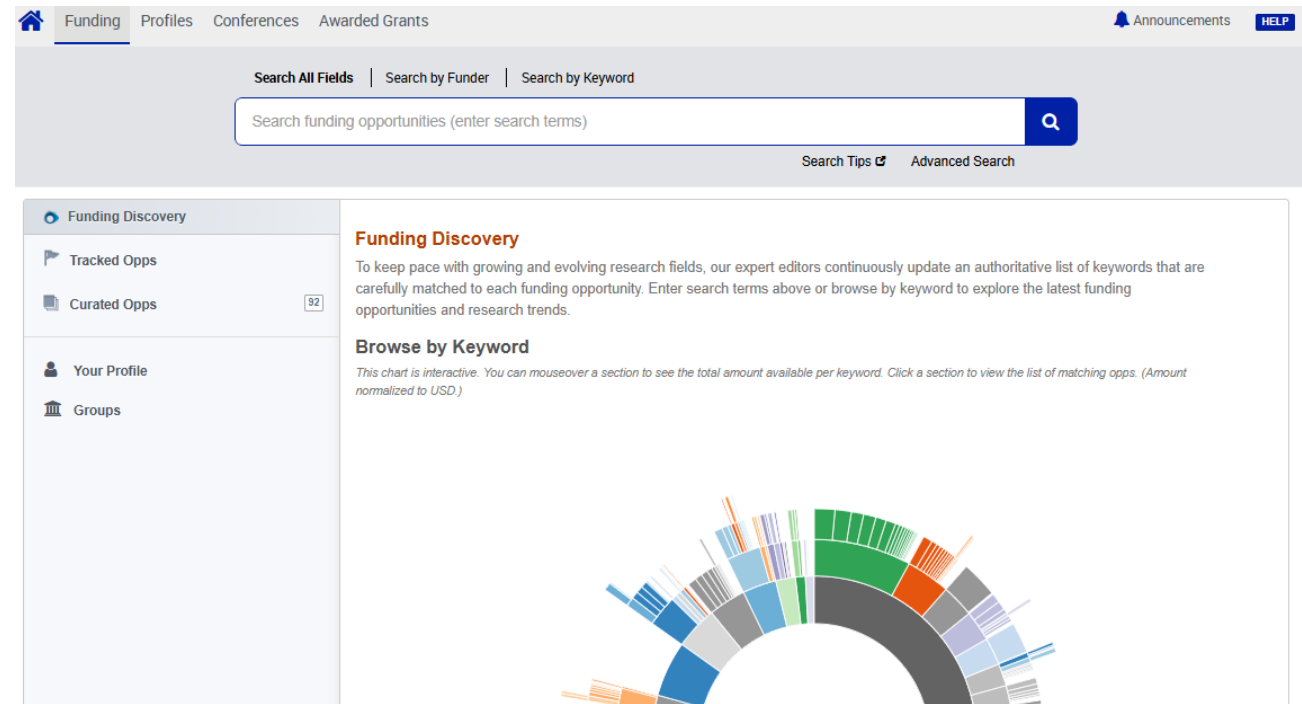

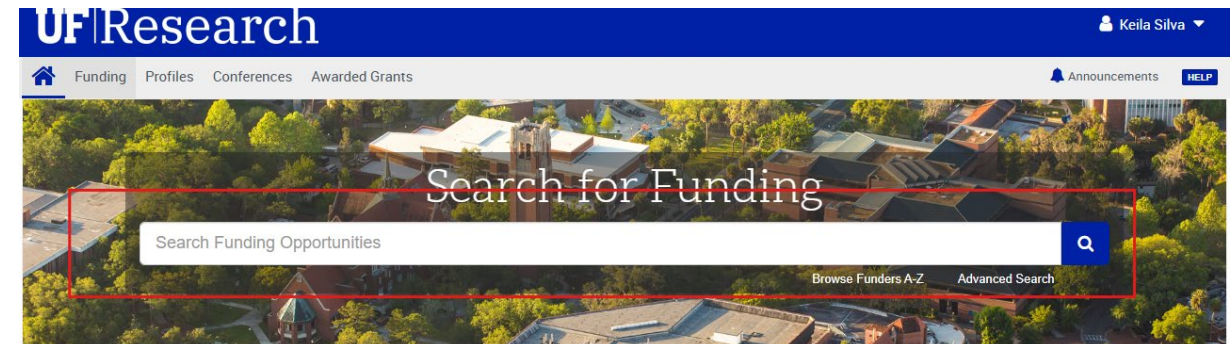

You can search from the home screen, but the Funding tab provides additional search options.

In the Funding tab:

Search All Fields – Quick search across funding opportunities (*similar to the home screen search*). You can refine your search using:

- Boolean: Combine concepts using AND/OR.
- Phrase search: Place an exact phrase in quotation marks.
- Proximity search: Use W/# when terms should appear within a specified number of words of one another (e.g., W/2).

Additional Funding tab options: Search by funder, browse funders alphabetically, search Pivot keywords, or browse the keyword hierarchy.

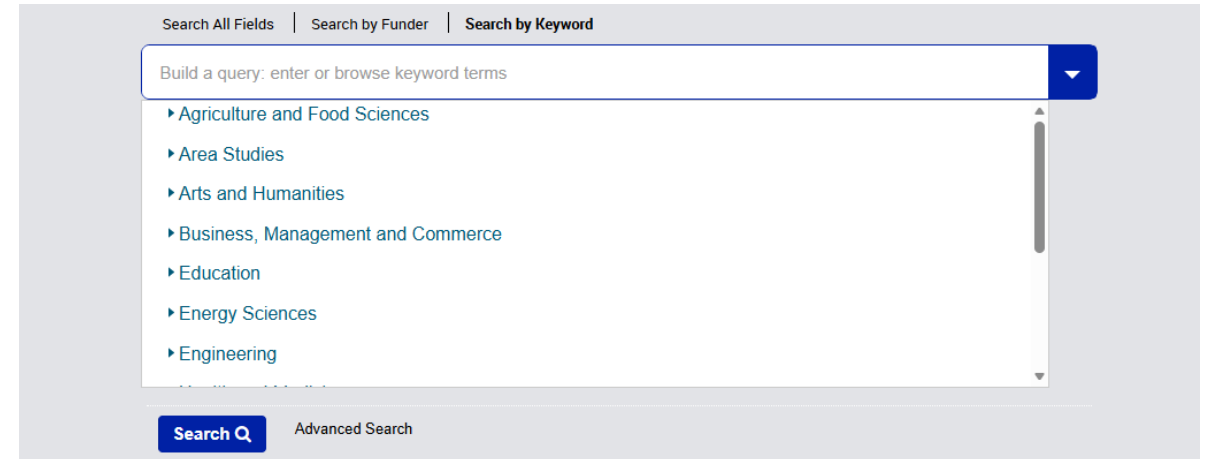

Keyword search uses terms Pivot editors apply when cataloging opportunities.

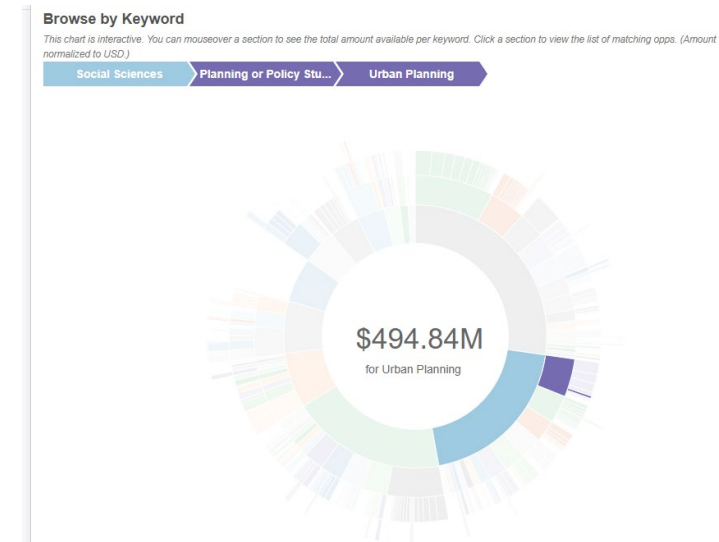

Enter a term and select from the hierarchy, or use the dropdown to browse categories for narrower terms.

You can select several keywords.

Visual Browse provides another way to move from broad disciplines to narrower subject areas.

The screenshot shows a search interface with three tabs: "Search All Fields", "Search by Funder", and "Search by Keyword". The "Search by Keyword" tab is active. Below the tabs is a search bar with the placeholder text "Build a query: enter or browse keyword terms". A dropdown menu is open, displaying a list of academic disciplines: Agriculture and Food Sciences, Area Studies, Arts and Humanities, Business, Management and Commerce, Education, Energy Sciences, and Engineering. At the bottom of the search bar, there is a "Search Q" button and a link to "Advanced Search".

After running the results, use the facets on the left to narrow a broad result set.

Filter by deadline, funding type, applicant type and other available criteria.
